

# SAMPLE DUAL-CREDIT PLAN

## Associate degree nursing to BSN track

This is a sample class schedule for you to take one year of dual-credit classes in high school and then one year at Sandburg before entering the associate degree nursing (RN) program. By following this plan, you could graduate from Sandburg with both an associate degree nursing and an associate in art degree that would prepare you to transfer to a BSN program. You must apply for admission into the ADN program and meet admission requirements. This schedule is subject to change.

### Senior year of high school

#### Fall semester — 16 weeks
